Episcopal Church Home

Community Connections-August 2026

Investing in the Future of Our Campus

Big things are happening at Episcopal Church Home! The ECH Foundation has approved funding for several major campus improvement projects planned for 2026. This represents a significant investment in the place our residents call home.

Projects include: replacing the soffits at Morton House, replacing fencing along Lyndon Lane and Marmion Courtyard, preserving the fence separating Dudley Square III, completing remaining paving projects in Dudley Square, and repaving the front and side parking lots. Work will take place in phases, with projects scheduled as materials, weather, and other factors allow. The first project, replacing the fencing along Lyndon Lane, got underway in July.

We are grateful to the ECH Foundation and the generous donors who make these improvements possible. Their support helps ensure that our campus remains safe, beautiful, and welcoming for the people who live here today and for generations to come.
