**Growing Together**

One of the joys of summer in Louisville is watching the landscape come alive with flowers, fruits and vegetables. From tending the raised garden beds to exploring the beauty of the Botanical Gardens, our residents have been making the most of the season.

These moments are opportunities to spend time together, enjoy nature, share conversations, and create new memories along the way. This month, we invite you to enjoy a few snapshots that capture the spirit of summer at ECH. We hope they bring a smile. Some of the best days are made up of simple moments like these.
